**DETAILED ACTION**

***Allowable Subject Matter***

Claims 14-32 are allowed.

The following is an examiner's statement of reasons for allowance: applicant's arguments on p. 7-10, filed on 7-6-09, are deemed persuasive and furthermore, the prior art taken alone or in combination fails to anticipate or fairly suggest the limitations of the claims, in such a manner that a rejection under 35 USC 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 14 and 27.

Specifically regarding claims 14 and 27, Dewey (5548352) teaches the state of the art of an adapter.

But, Dewey fails to explicitly teach a combination of all the claimed features including said peripheral region is neither involved nor intended for imaging of said object field of said object, and wherein said illumination beam path is guided in said peripheral region, as claimed.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Art Unit: 2873

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
